Solutions for Jewellery Showrooms

Transform Your Jewellery Store into an Intelligent, Data-Driven Showroom

AI Surveillance for Enhanced Productivity & Safety

- Employee Monitoring
- Zone Control Alerts
- Customer Footfall Analytics
- Fall Detection

Key Solutions for Jewellery Showrooms

Employee Productivity Monitoring

- Track staff presence & idle time
- Real-time alerts for unassigned zones
- Department-wise employee performance tracking

Smart Zone Monitoring

- Limit staff per counter zone
- Instant alerts for overcrowding
- Monitor staff movement across defined areas

Customer Entry-Exit Counting

- Count visitors in & out
- Analyze peak hours & footfall trends
- Generate daily & monthly visitor reports

Employee Fall Detection

- Detect slips & falls
- Immediate emergency alerts
- Incident recording for safety compliance

Restricted Area Monitoring

- Detect unauthorized access to sensitive areas
- Real-time alerts for restricted zone violations
- Protect vault rooms, storage & high-value sections

Camera Blackout Detection

- Instant alert if camera is covered or tampered
- Detect sudden video signal loss
- Ensure uninterrupted surveiliance coverage

Why Choose ActtonAI?

- Works with Existing CCTV
- AI-Powered Alerts
- Cloud & On-Premise Options
- Detailed Analytics Dashboard

Business Benefits for Jewellery Owners

- 15-30% Increased Productivity
- Reduced Theft & Risks
- Improved Operational Control
- Enhanced Customer Experience
